Deepak **Singh**

⊞ **Contact**: +91-7534022796 | devwebwithdeepak@gmail.com | GitHub | LinkedIn

Summary:

Experienced frontend developer proficient in React.js, JavaScript, Tailwind CSS, and Bootstrap, adept at creating responsive and visually appealing web applications.

Skills:

Frontend: *JavaScript, Redux, HTML, CSS*

Framework: *React.js, Tailwind CSS, Bootstrap*

Other Skills: *Node.js, Express.js, MongoDB, Git & GitHub*

Experience:

Work on a project as a free lancer for 1 to 2 months as a frontend developer, I collaborated on a healthcare website project, enhancing user experience by integrating intuitive navigation and ensuring seamless access to vital medical information, optimizing it for a dynamic and user-friendly platform.

Projects:

• **Project: HEALTH CARE WEBSITE (Aadesh Health Care)**   LINK

1.   **Role:** Frontend Development

Technology used: React JS, Tailwind CSS,

- Developed the dynamic front end for Aadesh Health Care portal using Tailwind CSS.

- Using Email.js library Transmitting information via SMTP protocol involves establishing a connection to a mail server, sending the data through the SMTP server for delivery.

Education:

- BSc in Information Technology from College of Technology, Dehradun, Uttarakhand, Currently Pursuing. 2021 - 2024

- Intermediate from Amar Sahid Memorial Inter College, Saharanpur, Uttar Pradesh, in 2021

- High School from Amar Sahid Memorial Public School, Uttar Pradesh, in 2019
